  - Campus Accountability Rating – A
    - Received results Aug. 15
    - High-level Overview:
      - Three Domains
        - Student Achievement (approaches, meets and masters): based on STAAR test for grades 3, 4, 5;
        - Was 83 in 2019 (B)
        - 92 in 2022 (A)
        - School Progress
          - Academic Growth and Relative Performance dimensions
          - Take highest of two
          - Growth is progress from previous years' performance (4<sup>th</sup> and 5<sup>th</sup> grades)
          - Relative performance takes economically disadvantaged and compares us to schools that look like ours
          - Was 83 in 2019 (B)
          - 97 in 2022 (A)

- +14 on Relative Performance (lower of two scores)
  - Closing the Gaps
    - Every demographic at “meets” standard (at or above grade level); cut scores by subject;
    - If SpEd isn’t performing, Hispanic population, it shows in TELPAS
    - Was 87 in 2019 (B)
    - 92 in 2022 (A)
- Any school under 70% isn’t rated
- State didn’t give letter grades in 2020; used 2019 results for ’21 performance
- We were B when Ms. Greco arrived
- Six distinctions, we gained three: Science, Comparative Academic Growth, Postsecondary Readiness
- Q: component score?; Greco: one of the dimensions they track
- Stacy: recommend [Txschools.org](https://www.txschools.org) for benchmarking with district
  - Summitt out-performed district in all categories
- Q: Alyssa: does this show students are no longer behind from covid?;
  - Greco: about how we view being behind; we meet them where they are; the progress is what gets you these results; worked hard on growth mindset, meeting needs of kids differently; not about all kids getting an A, about kids progressing from last time
- 90 approaches, 60 meets, 30 masters was target for 2022; 90/70/40 for 2023
- Nathan: celebration?; Ms. Brannies: kids worked at it; sturdier footing; Greco: celebrated on the first day of school with icecream, brag on teachers all the time
- Greco: increased our rigor; kids were able to achieve it since we didn’t lower the bar
- Julie: best practice sharing?; Greco: yes, weekly principals’ group
- Matt: which students were tested when?;
  - 64% participation rate in 2020-21
  - 99% participation rate in 2021-22
  - Greco: fewer student growth targets overall; odds for greater progress than regular years; 30%+ who weren’t tested but will count in next assessment; Greco: we don’t pressure teachers on STAAR, share data
- Matt: need any other support or resources to help students who didn’t test in the past?
  - Greco: teachers would say time and money

- Tran: used to have mentors; can bring them in?; June: never got paid 😊, I came to do interventions; Greco: learning our kids and their needs now, can look into that
  - Stacy: legislative session coming up, can change measurements

    - Alyssa: how going with PE?; Greco: hired two PTA TAs, seems kids are enjoying it
    - Lubna: are teachers enjoying?; Greco: we're revisiting adding another (third) planning time; maybe a campus-wide schedule change; change in Music/Arts, increased time there; Music or Art twice a week; goal is to lock in for Meet-the-Teacher
    - June: how is the dual-language?; A: still spaces in Pre-K, K; some room in 1<sup>st</sup> too
  - Safety
    - Timmie: observation that more parents dropping kids off at cross-walk in front of the circle drive; have seen twice already; no way to even put a WatchDOG there; hard to inform parents; June has shared the safety stuff in dual-language threads; have to reiterate; Greco: will include in the robo-call; volunteers could

help; Ms. Greco will reinforce at Meet-the-Teacher; Nathan will share word with WatchDOGS
