Summitt House System:

Summitt Houses were created for all students and staff to feel a sense of connection, collaboration and care.

CONNECTION: At Summitt Elementary we have five houses. All students in grades Pre-K through 5th grade, are vertically assigned to a house at the beginning of the school year. Each school year begins with students learning the qualities and characteristics of each house's trait which then leads to a school wide house reveal.

COLLABORATION: Each Tuesday students participate in a House Meeting with their fellow house members. Students get to collaborate by participating in various activities and energizers. Students recite their motto and build connections during this time. Your child is encouraged to wear their house color on Tuesdays.

CARING: A house system helps to build a caring, supportive environment. Each student will be a valued member of a smaller group within the whole school. The purpose is to create an enjoyable atmosphere in which deep learning and effective teaching can flourish ... a school with rigor and relevance.

Summitt Houses:

The House of Kindness (red, heart)

The House of Courageous (gold, lion)

The House of Collaboration (blue, wolf)

The House of Innovation (purple, racoon)

The House of Tenacity (green, turtle)

Summitt House System allows for:

- Inclusive community of staff and students
- Buddy class pairings
- Reading buddies
- Multi age grouping opportunities
- Vertical teaming and alignment
- Student leadership/ownership

Transportation

Bus Safety Bus riders are expected to follow safety procedures while on the bus and while waiting at the bus stop. Students should remain seated when the bus is moving and follow other Summitt school rules while they are en route to and from school. Students may be removed from the bus if their behavior is inappropriate.

If your child rides the bus, Austin ISD has an app, *WheresTheBus*, which will let you know where your child’s bus is located. It’s available for download on your phone or tablet.

Learn more about School Bus Routes and transportation provided by AISD.

Bicycle Safety and Security Bicycles are to be chained at the bike rack. Bikes should be walked when on the sidewalk. No bicycles will be allowed in the building. Helmets should be worn when riding bikes. Skateboards, scooters, sneakers with wheels or roller blades should not be brought to school.

Traffic Safety General safety rules should be observed by students and parents when loading and unloading children from vehicles. Please encourage your child(ren) to cross the street at the cross-walks for safety reasons. Children should not exit from the driver’s side door because of the possibility of injury. Do not park in the fire zones or along the curb in the front driveway of the school. The right lane along the curb is for drop-off only. The left lane is for moving traffic. Pull forward as far as possible and then drop off your child at the curb.

Visitors

Report to the office with your driver's license. A name tag will be created for you. Once you are in the system, the process will be faster **but you will need to show your driver's license upon every visit so please have it on hand.** We ask visitors to sign out at the conclusion of your visit so please stop by the office and turn in your name tag.

Schedule a conference with the teacher if you would like to discuss a visit.

The Fitness School

We are excited to bring The Fitness School to Summitt Elementary! The Fitness School is bringing it's After-School Enrichment Program to Summitt! The program converts time after school into productive, health-promoting activity. Based on the building blocks of fitness, we introduce all children regardless of age, competency level or current fitness level to a meaningful regime of fitness-building skills that will last a lifetime. Delivered on campus and after school with the assistance of interns from The University of Texas

College of Education, Advanced Sciences, Kinesiology and Athletics Departments, The Fitness School provides our area kids a means to dissipate their restless energy and keep them active. CURRICULUM

Foreign Language Experience Program (FLEX)

Beginning in 2013, Summitt Elementary and the Anderson High School vertical team take part in a Foreign Language Experience Program (FLEX) called One World Schools. Along with the other elementary schools in Summitt's vertical team, Summitt provides foreign language instruction to first through fifth graders. Students receive lessons in a foreign language and culture, once a week, from a highly trained teacher who travels between the campuses. Summitt is home to the 3rd grade German teacher: Greg Rohde.

The five languages are:

- Spanish-1st grade
- French-2nd grade
- German-3rd grade
- Chinese-4th grade
- Latin-5th grade

Library

Our amazing librarian, Mrs. Richey, plans many wonderful things and events for our students. Drop by and you may get to visit the library pet, enjoy a pancake breakfast, sign up for Birthday Book Club, and of course, check out the many great books. All classes come

to the library once every week or two, depending on their grade level. Books can be checked out for two weeks.

Middle School Presentations

Many of our 5th grade students are determining their next steps as a middle school student. If your child is interested in applying to attend Kealing, Lively, Lamar, Gus Garcia, Bertha Sadler Means, or Ann Richards, additional information is available in the front office. Additionally, there will be presentations given to our 5th graders in the fall. Parents are invited to join us in the 5th grade commons area to hear these presentations if they desire to do so.

Magnet schools seek to recruit and draw an ethnically diverse student body from throughout the city. Students who wish to attend a magnet school go through an application process, and proof of residence in the Austin ISD attendance zone is required to apply to an AISD magnet school.

Social Emotional Learning

Social and Emotional Learning (SEL) is a process for helping children and adults develop fundamental skills for life effectiveness. SEL teaches the skills we all need to handle ourselves, our relationships, and our work effectively and ethically. These skills include:

- recognizing and managing our emotions,
- developing caring and concern for others,
- establishing positive relationships,
- making responsible decisions, and
- handling challenging situations constructively and ethically.

Our campus has an assigned SEL (counselors) specialist who supports implementation on campus by providing professional development, observing lessons and giving feedback on explicit instruction, and integration of SEL skills and concepts into academic instruction. Specialists work closely with campus administration and facilitators to develop SEL goals and action plans with the steering committee.

Special Areas

Art Art instruction is provided by a specialist in grades K-5. Student artwork is displayed on campus and in the community.

Music Music instruction is provided by a specialist in grades Kindergarten through 5th grade. Students in 3rd through 5th grade participate in an annual city-wide Music Memory Contest. 4th and 5th graders can try out for choir and participate in the Recorder Festival held each year. Students should wear shoes that will stay on their feet during movement activities.

Physical Education (PE) PE class concentrates on 2 skill units and 2 health units every 9-week session. We also have many fun wellness events planned throughout the school year including Marathon Kids, Jingle Bell Jog, 5th Grade Volleyball Playday, CATCH Night and Olympic Field Day! Austin ISD PE and Health programs aim to inspire students to make healthy decisions, develop social skills and pursue lifelong physical fitness.

STAAR

The State of Texas Assessment of Academic Readiness (STAAR) exams are taken by 3rd-12th grade students. Please note that parents are not allowed on campus during STAAR testing due to confidentiality and security. Please schedule lunch with your student on another day. The library will also be closed these days. For more information about STAAR visit tea.texas.gov.

National Bike to School Day

We encourage physical fitness through walking or biking to school if you and your family are able. Picture Day (Class and Student)

Fall, spring, and classroom group pictures will be taken. Parents should receive flyers in the Monday Folder for more information. UIL (University Interscholastic League) A+ Academics Tournament

UIL A+ Academics is an academic competition designed to promote enrichment and a healthy competitive spirit. More than half a million students participate in UIL academic competitions each year in Texas.

In order to begin preparing for the UIL competition, teachers and students in grades 2-5 will build in some enrichment time to practice UIL skills during class. From there, students wishing to continue with the competition will participate in a small run off competition in early December to select the students who will compete at the actual event. We may only send a set number of students to participate in each event, but we want to ensure everyone has the opportunity to try out if they would like. In the spring semester, we will be looking for parent volunteers to help us coach our competitors.

Please look for more information to come home if your child is selected to participate.

Gifted and Talented

Each year parents and teachers are invited to nominate students who exhibit exceptional abilities in math, science, language arts, and/or social studies to be screened for the Gifted and Talented Program (GT). The nomination period, or window, is usually 2-3 weeks long at the beginning of each semester, but precedes a much longer testing window of 6 – 8 weeks.

We test students in grades 3-5 in the Fall Semester and students in grades K-2 in the Spring Semester. This allows older students to test before the mandated testing season begins in the spring, and younger students to have an opportunity to adjust to the new school year before the students participate in the lengthy GT Screening Process. The GT Screening Process does include online testing, which is timed for 3rd-5th, and the completion of a common assessment done at school.

Parents are encouraged to talk with their child's teacher about possible GT testing, although that is not required. Parents must then complete and turn in a parent survey. These can be found online or in the main office.

P.A.L.S. Program

PALS has trained high school students across the district to be peer mentors to younger students at feeder schools, serving as their role models and mentors. Today, the PALS program has expanded to training elementary and middle school students to serve as peer mentors. PALS promotes service, the development of interpersonal skills and community-mindedness, which helps to create a more positive and productive school environment.

Summitt-Koblenz Student Exchange

Are you interested in joining us on the next trip to Koblenz, Germany? Summitt 4th and 5th graders are invited to get involved in the Koblenz Exchange Program. Children who would like to attend write essays about why they want to participate in the program, and a committee chooses the participants. Parents must also be committed because there is fundraising activities, including the Teacher Talent Show, Movie Nights, and Holiday Bazaar, along with regular meetings for students and parents to prepare for the trip.

Visits to Germany are every other summer and in the alternating spring, children and families from Koblenz visit Summitt and Austin. If you would like more information, please contact one of Koblenz committee members: Heidi Meurer or Heather Brannies.

Vietnamese Dual Language

Mission The program's mission is to help students develop high academic and linguistic proficiency in two languages by participating in a rigorous academic program that enhances the development of bilingualism, biculturalism, and biliteracy so that students will be well prepared for higher education, careers, and have the pride and self-confidence to be successful in the global community.

Vision The Austin Independent School District Vietnamese Dual language program serves to promote bilingualism, biculturalism and bi-literacy for all participating students. The program is committed to educate our students in a multicultural learning environment that accelerates learning and fosters life-long learners who celebrate diversity and become responsible citizens of the world.
